

50 Years of Strand Manufacturing

Anutone achieves the rare feat of 50 continuous years of manufacturing Strand woodfibre board (also known as wood wool board or wood cement composites) in India.

From its humble origins in December 1966 as Anulyte board by Anudyogcompany in Kolkata to Anutex board by SSS Wood Industries in Bengaluru in 1982 to its current avatar as Strand by Anutone this original classic has come a long way. With an international footprint and adherence to Euro standards (EN 13168) Strand has been the torchbearer to the acoustics industry in India.

Anutone is also the first to introduce several variants of Strand like embossed Sculpt • fabric-wrapped

Soak Cord • surface-smooth Burl • core-pigmented

Ebony • large-format Planks • factory-painted Color • hanging baffles Strand Duo • vibration-free flooring **Float** etc which have not only been trendsetters but spawned several imitations too.

Strand Colors

Soak Cord

Strand continues to boast 20 fabulous features that initially made it so famous and popular. Check them out [here](#). Anutone will continue to serve the interests of the acoustics and building community. Be sure to find Strand in several upcoming projects of 2016 and beyond ... in offices, ITES campuses, educational institutions, hospitals, hotels, malls, theatres, studios, public buildings etc.

Anutone does India proud at Afghan Parliament

India Prime Minister Narendra Modi and Afghanistan President Ashraf Ghani inaugurate the new Parliament building of Afghanistan built by India on 25th December 2015

Anutone does India proud by supply of acoustical panels for this prestigious and landmark project.

Featured in the new building are 'Ekcel Soak Custom', 1200x600x25mm, installed on H-Spline for acoustical panelling.

Anutone adapted to the unique requirements of the project by wrapping premium custom fabric on Strand panels in record time and delivering the highest quality to meet the exacting standards of the world-class project. Hence, 'Ekcel Soak Custom' is a Strand variant and the best possible way to celebrate 50 years of Strand manufacturing!

Challenging work conditions, shortage of skillsets and a risky security environment brought out the best in India's CPWD and other agencies to determinedly execute the project and deliver it as a gift to the Afghan people.
