

Subtex NRC gets smarter

As India plans smart cities Anutone introduces matching smart products
Subtex NRC, the popular fabric-finished panelling, now with smart new features

- **New smart edges**
Resin-bonded edges that are stronger to impact
 - saves you in lesser damages and user abuse
 - bevel edge added to square for crisp designer looks
- **New smart sizes**
Standard size options now expanded to 1200x2400mm
 - means more flexibility in sizing to suit individual walls & adjacency
 - from large format to planks ... all is now possible

New Subtex NRC ... Smart Features

Feature	Old Subtex NRC	New Subtex NRC	Benefits
Edge toughness	Gypsum banding	Resin banding	Higher impact resistance, lesser damages
Edge profiles	Square only	Bevel added	More aesthetic options, no adjacency issue
Standard size	600x1200mm only	Upto 1200x2400mm	Large format now possible, lesser joint lines
Custom sizes	Not available	Any size possible	Lesser wastage, joint lines match others
Planks	Not available	300x600/1200mm	More economical, lesser wastage

Synth Slim gets much smarter

Wider range of trendy colours from Europe

This is an era of smart ... from smart phones to smart cities
Anutone gets in sync with smarter acoustical panel systems

New for 2016 is Synth Slim in a smarter avatar

- Vibrant interiors - 32 latest colours from Europe as per 2016 trends
- Very versatile - not only for acoustics but also as a pin-up board
- Creativity unlimited - can be cut in shapes and colours mixed/matched
- Size flexibility - 1200x2400mm can be cut at site .. minimal wastage
- Space saving - 9mm thick only - the slimmest acoustical wall panel
- Lightweight - does not add any weight to the existing walls or structure
- Easy fixing - no special tools. Just apply adhesive and stick to walls
- Workstation divider - can be used as a standalone visual/acoustics barrier
- Several options - can be custom embossed or printed on request (specials)
- Special applications - higher thicknesses upto 20mm on request (specials)
