

Anutone launches 6D Acoustics

Booth i71, Hall 1, Palm Expo Mumbai, 1-3 June

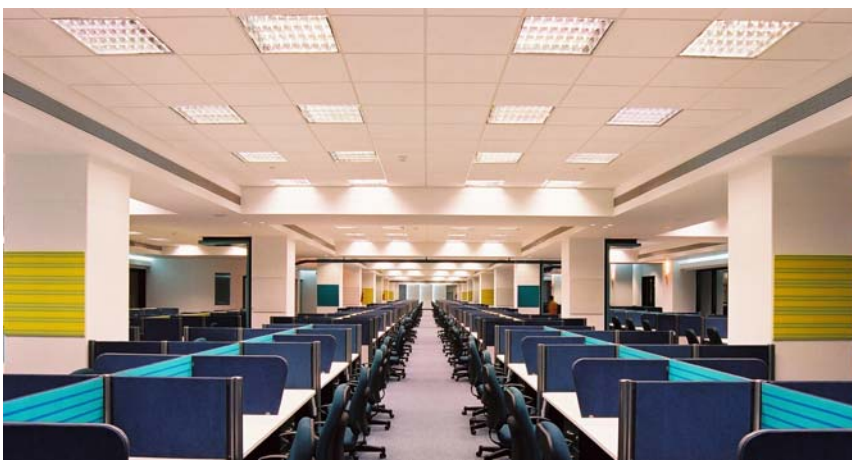

For the next generation of digital audio
Anutone launches matching 6D acoustics

Distortion free

True high fidelity. Pure sound for audiophiles. Conforms to EBU 3276 - the European Broadcasting Union's technical treatise for listening conditions for assessing stereo and multichannel surround sound. Applications in critical small venues - recording studios, demo rooms, listening rooms, home theatres.

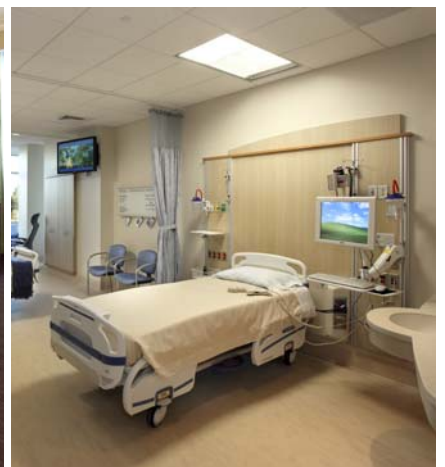

Distraction free

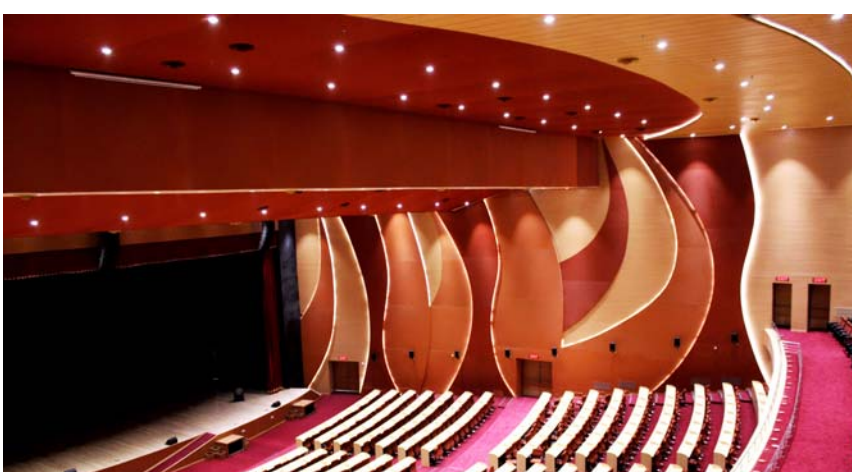

The open plan office needs the right acoustics to enhance employee productivity. Discrete panels that discreetly absorb sound on ceilings, walls and workstations. Conforms to ASTM E1374 - Standard Guide for open office acoustics. Applications in offices - software campus, corporate towers, government.

Disturbance free

Acoustical privacy is most sought by both the well-heeled traveller and the wellness-healing patient. Conforms to ISO 15712 - Acoustic performance of buildings - sound insulation between rooms. Applications in hospitality and healthcare - hotel guestrooms, resorts, hospitals, nursing homes, rehab centres.

Dissonance free

Harmony of all frequencies with variable acoustics for the connoisseur. Total alignment of audio and acoustics. Conforms to ISO 3382 - Measurement of room acoustics for performing spaces. Applications in performing spaces and cinema - opera and concert halls, auditorium, single screens, multiplexes.

Distress free

Cacophony in the built environment means stress as does jarring visuals. Subtle acoustics with soothing aesthetics ensures comfort to the eyes and the ears - a happy blend of the visual and the aural. Applications in entertainment destinations - malls, clubs, restaurants, lounge bars, microbreweries.

Distance free

Every seat a prime seat - no hotspots, no coldspots, no room modes. To ensure full spectrum of the soundwave and equal loudness with localization for each patron is an art and a skill. Distance from the sound source no longer matters. Applications in very large venues - stadiums, arenas, town halls.
