

From recording to playback

From the acoustics of recording studios where cinema 3D sound is mixed to the acoustics of modern multiplexes and home theatres where patrons enjoy the immersive 3D sound as the director and sound engineer intended, Anutone straddles the acoustics value-chain like a colossus !!!

Anutone is proud to be associated with the Harris Jayaraj Studio, Chennai. One of India's most modern recording and monitoring suites with cutting edge technologies and state-of-the-art equipment. Anutone thanks the acoustical consultants, Sound Wizard, and in particular the dynamic duo of Didier Weiss and Kumbha Young Grenier, for the choices they made in design and product selection. It has been an outstanding installation and system integration. Let us look forward to stunning audio emanating from this studio that is surely going to leave the audience mesmerised.
