Acoustics Drywalls Ceilings Panelling

## Acoustical Walls & Ceilings Quick Guide 2018

Release 4.0 - July 2018

[www.anutone.com](http://www.anutone.com)

Pristine acoustics for an auditorium of a premier educational institute. Stretch SLS and Slats Surco panelling in custom colors on Strut framing system and SynthPF infill for Gautam Buddha University, Noida NCR. [www.gbu.ac.in](http://www.gbu.ac.in)

The strength of Anutone lies in providing several options to the architect|designer for the ultimate in design flexibility and creative fantasy with ease of installation to the contractor and acoustical performance built in for the end user!

## 50+ years of manufacturing excellence and acoustical passion

Anutone's vast portfolio of acoustical products, systems, solutions and services are comprehensively featured on our website [www.anutone.com](http://www.anutone.com) and hardcopy Product Guide (PG). Each wall and ceiling product series has several options - dimensions, edges, shapes, core variants, surface finishes, performance characteristics etc. This hardcopy Quick Guide (QG) is a brief overview for introductory purposes only.

Anutone has a total solutions approach - the unique ability to assess your needs and meet your acoustical requirements for drywalls, ceilings and panelling right from design specifications to project drawings to product supply and installation guidance to ensure user satisfaction. This complements the valued services of acoustical consultants, interior architects, services engineers, surfaces specialists, contractors and project managers.

## The future of acoustical walls & ceilings from a single source

Anutone's innovative, factory-finished, modular, lightweight, fast|easy to install, sustainable wall and ceiling systems enhance the acoustics of the built environment for work, play and living. Whether it is a large campus project or a tiny home theatre, Anutone has a custom but total acoustical solution that fulfills your needs and delights all stakeholders!

Once the civil shell of a building is ready, Anutone product systems come into play. Right from efficiently dividing floor plates with high-yield drywall partitions to high-performance ceilings & panelling, all with acoustics built-in, Anutone provides commercial interior solutions that are tried, tested, trusted ... since 1966 for 50+ years !!!

### Acoustics

From acoustical needs assessment to concept design to product supply to project guidance to validation of site, Anutone straddles the value-chain. In acoustics we have a successful track record of projects that perform right, the first time, every time. This complements acoustical consultants.

### Drywalls

Then the floor plate needs efficient partitions to yield maximum usable area. Anutone provides solutions with Tufbloc drywall systems that sport a metal frame, polyfibre infill and magnesium boards as skins. They boast very high ratings for water, fire, termite, impact and noise resistance.

### Ceilings

Once useful spaces are created with drywalls, Anutone acoustical systems finish the surfaces from top to bottom. First is ceilings to cover overhead utilities and provide high performance. Anutone offers ceilings with virtually any surface finish, any core material - our USP.

### Panelling

Once acoustical drywalls and ceilings are done, Anutone systems finish the wall surfaces from top to bottom, side to side with functional panelling that match the decor with options in textures, fabrics, vinyls, wood, metal, cement - again our USP.

## Anutone Heritage

Since 1966, for 50+ years, Anutone has been the thought leader. Starting with wood wool board industry in India to architectural acoustics in the 1990s, Anutone has revolutionised and professionalised these verticals.

## Anutone Innovation

Anutone's strong emphasis on research and development means pioneering new products and concepts in architectural acoustics many for the first time in India. This augurs well for designers giving them many more viable options conforming to current international trends.

## Anutone Resources

An all-India network of own marketing representatives (every major state capital is covered!), dealers and authorised applicators ensures hassle-free pre-sales to post-sales service assistance.

## Anutone Standards

Anutone zealously conforms to certification standards and building codes. All products are lab-certified as are Anutone's processes for management, environment and health|safety.

## Anutone Green

Most products are made partly from recycled materials and are recyclable. Anutone's manufacturing is largely energy saving. Products are supplied to sites with minimal wastages or emissions.

## Anutone Education

Anutone organises Soundz Acoustics Conference for the building community at their chosen venues or at its corporate office in Bengaluru. These are anchored by Technical Director, Sandeep Mittal, who is associated with the industry for 30+ years!

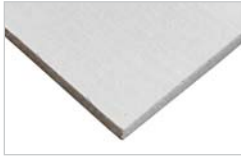

Anutone introduced wood wool boards for the first time in India in 1966 and kept ahead with innovations like Strand Duo, Strand Colour, Strand Wave. And now the grand re-entry of Strand Sculpt after 14 years that Anutone had invented in 1992 and successfully produced till 2002!

Precision acoustics for immersive audio in a modern multiplex. Anutone introduced TheatreWorld newsletter in 1998 to the cinema industry that later evolved into an independent magazine. Here are Anutone products for Aries Multiplex Trivandrum.
