YEARS
1966 - 2016

Anutone - the future of acoustical walls and ceilings

Anutone's innovative and factory-finished, modular and lightweight, dry and fast install, sustainable and green wall/ceiling systems enhance the built environment for work, play and living. Whether it is a large commercial project or a home theatre, Anutone has an acoustical solution that fulfills your needs!

Once the civil shell of a building is ready, Anutone's acoustical product systems come into play. Right from efficiently dividing floor plates with high-yield drywall partitions to high-performance ceilings & panelling, all with acoustics built-in, Anutone provides solutions that are tried, tested, trusted since 1966 ... yes for 50 years and counting! Thus, Anutone is your most experienced acoustical resource in the industry. Period.

For large construction sites it is very easy to sequence the project with Anutone's acoustical product systems as below.

Acoustics

Acoustics is in our DNA! We have a successful record of projects that perform right, the first time, every time. From needs assessment to product supply and installation guidance, Anutone straddles the value-chain. This complements professional acousticians. Acoustics is built into all that we do.

Drywalls

First the floor plate needs efficient partitions to yield maximum usable area. Anutone provides solutions with Tufbloc drywall systems that sport a metal frame, polyfibre infill and magnesia boards as skins. Our drywalls boast very high ratings for water, fire, termite, impact and noise resistance.

Ceilings

Once useful spaces are created with drywalls, Anutone systems finish the surfaces from top to bottom. First is ceilings to cover overhead utilities and provide necessary performance. Anutone provides ceilings with virtually any core material, any surface finish - textures, wood, metal, fabrics etc.

Panelling

Once drywalls and ceilings are done, Anutone systems finish the wall surfaces from top to bottom, side to side with high performance coverings ... functional panelling that match the decor with options in textures, fabrics, vinyls, wood, metal, cement. Then comes the flooring!

PTC Software, Pune ... Stretch NRC, Strand as Floats

Accenture Ecospace, Bengaluru ... Strand with Stretch

Mahajati Sadan, Kolkata ... Subtex Nubby, Tufbloc, Pixel Square

Stadium, Ludhiana ... Subtex Nubby

PWD Nirman Sadan, Bhopal ... Slats, Subtex Shapes & Stretch NRC

Chirayu Medical College, Bhopal ... Strand with Custom Fabrics insitu, Slats

Golden Temple Plaza Museum, Amritsar ... Pixel Smery & Mat Ebony

NISM Auditorium, Mumbai ... Pixel Taper, Stretch NRC, Strand, Spots MP3 & Sonator
